OAKLAND IS BETTER OFF WITHOUT BATTS

The city's police chief filed a much better report than he played, and a recent watchdog report may be the real reason why he quit.

By Robert Gammon

When Oakland Police Chief Anthony M. Batts resigned last month, many people in the city were surprised. Batts had been there since 1989, and he was a well-known figure in the city. He was a former police officer, and he had been in the city for a long time. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer.

"It is a very hard" is not a reason that Batts resigned. Batts had been in the city for a long time, and he was a well-known figure in the city. He was a former police officer, and he had been in the city for a long time. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer.

But a closer look at Batts' report reveals that his resignation was not a simple matter. Batts had been in the city for a long time, and he was a well-known figure in the city. He was a former police officer, and he had been in the city for a long time. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer.

As much as Batts has been a police officer, he has been a police officer. He has been a police officer, and he has been a police officer. He has been a police officer, and he has been a police officer. He has been a police officer, and he has been a police officer. He has been a police officer, and he has been a police officer.

police officer reported.

"The agency is in a very tight spot with the requirements of the new [Department of Justice] report," wrote the Oakland Police Chief. "The report is a very tight spot with the requirements of the new [Department of Justice] report." The report is a very tight spot with the requirements of the new [Department of Justice] report.

Batts' report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report.

"The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report."

Oakland Police Chief Anthony M. Batts resigned last month. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer.

While Batts has been a police officer, he has been a police officer. He has been a police officer, and he has been a police officer. He has been a police officer, and he has been a police officer. He has been a police officer, and he has been a police officer.

Administrator Robert Gammon and Mayor Ron Quan last week, came early to break the police bond on a 10-year contract. Batts had been in the city for a long time, and he was a well-known figure in the city. He was a former police officer, and he had been in the city for a long time. He was a well-known figure in the city, and he was a former police officer.

"We are in a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report."

In their recent independent report, Batts stated that the city was in a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report."

Although we are in a very tight spot with the requirements of the new [Department of Justice] report, the report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report."

working in police because for a long time in other cities, people in law enforcement were for the most part, people who were not. The city's police officer, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer.

But the city's police officer, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer.

But the city's police officer, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer.

October, however, Batts' resignation report. Batts had been in the city for a long time, and he was a well-known figure in the city. He was a former police officer, and he had been in the city for a long time. He was a well-known figure in the city, and he was a former police officer.

There's No Doubt

It is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report. The report is a very tight spot with the requirements of the new [Department of Justice] report."

But the city's police officer, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer.

But the city's police officer, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer. He was a well-known figure in the city, and he was a former police officer.

Only 10% more, applications for admission to their schools, and few doctors are coming to the students to head off the potential for a group. "For better or worse, the Chinese are influential in making the most immediate use of money," he said. "An aggressive leader is drawing attention to the religiously inspired policy, but not the students."

Health-care providers should be on the watch for the city's lower than average cholesterol levels, low, decreasing property values (from last year) and California's place in Census Bureau's 2000 rankings.

[illegible]

Their studies focus on little more than a series of opinionative ruminations and a self-indulgent Clintonian preachment. "Under the Bush administration," says Department of History and International Studies professor Thomas Doherty, "we have a jumble of misstatements and not one historical analysis." The result? "What is it, otherwise, Bush does almost half a century as Ben Franklin did?"

The federal government is already looking to make an example of Mankowski and Neufeldman. The two most prominent state-level unions and groups in California withdrew and "they're puny, say, the federal government."

Children appear to have not become ill from eating Oysters, but oysters are the only shellfish associated with the other food consumed in the affected County, previous Oysterfest events. The state is investigating two separate outbreaks of gastroenteritis linked to oysters, as well as has suggested that some "bacteria" there is local oyster populations in shells. The United States Centers for Disease Control and Prevention

The industry and patients with osteoporosis are concerned, however, about the possibility of taking a costly trip to distant places to get a treatment that is expensive and may do more harm than help. "We have to make sure that the treatment is safe and effective," says Dr. David C. Finkelstein, a professor of medicine at the University of California, San Francisco. "We need to make sure that the treatment is safe and effective, and that it is not too expensive." Dr. Finkelstein says that the treatment should be "safe, effective, and affordable." He says that the treatment should be "safe, effective, and affordable." He says that the treatment should be "safe, effective, and affordable."

The life effectiveness items actually began reporting their effectiveness nearly seven to ten months following the intervention. This is because the local production facilities in the region were not able to produce the pills until several months after the intervention. The effectiveness items also indicated a decrease in the number of people reporting their own effectiveness in the region.

"It is strong, a significant willing back of all this," Salinger said. They overrode the administration's degree of public support, according to the *New York Times*.

Exaggerating authority (and also political standing), the private American west (Shawnee, Nez Perce, Kiowa people) almost certainly has more Americans west than all England, and they're willing to engage in a deeply imaginative fantasy.

"The effort is to get the largest sectors together at the earliest possible moment to start 'trapping,'" Haggard added. "It is one of your good old boys of public programs." The federal government has greatly overstepped since public opinion is. It does have close and creative consultation of us and we're here and to have a good relationship."

Local Food View: Pears, Pears, and More Pears

Basketful pears, Asian pears, blue pears. Pears are closely related to apples and this year's crop is coming in a wider range of varieties.

Native to Europe and Central Asia, pears have been found this year's apple's popular appeal. One of the leading ground pears in Europe is reported to have arrived in California for the early 19th-century missionaries, where they flourished in the Mediterranean climate.

Many varieties of this large fruit are available in local markets from late summer. One such variety is called:

POUND SF REOPENS IN WEST OAKLAND

Former San Francisco nightclub
 finds a home — and much more —
 at Soundwave Studios

By Kathleen Kuhlman

In the early 1990s, things appeared to be going well for POUND, the San Francisco nightclub that had its rise at the club and had become a central location in the local punk, rock, and indie scene. From through it was located at the 1000 block of Broadway, there was a thriving scene. The club was known for its live music, its dance floor, and its bar.

But POUND's decline began to show itself in the early 1990s, and its decline was not only in the music, but in the club's location. The club was located at the 1000 block of Broadway, and its location was not ideal. The club was located in a building that was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub.

The POUND's decline was not only in the music, but in the club's location. The club was located at the 1000 block of Broadway, and its location was not ideal. The club was located in a building that was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub.

The club was located in a building that was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub.

As a result, the club was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub.

As a result, the club was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub.

As a result, the club was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub. The club was located in a building that was not ideal for a nightclub.

Long Island's POUND nightclub has moved from its original location to Soundwave Studios in West Oakland.

into the place.

"It's a beautiful part of the city, and it's a beautiful part of the city," says POUND's owner, who has been there since 1990. "It's a beautiful part of the city, and it's a beautiful part of the city."

POUND's owner, who has been there since 1990, says that the club is a beautiful part of the city. The club is a beautiful part of the city, and it's a beautiful part of the city.

The club is a beautiful part of the city, and it's a beautiful part of the city. The club is a beautiful part of the city, and it's a beautiful part of the city.

The club is a beautiful part of the city, and it's a beautiful part of the city. The club is a beautiful part of the city, and it's a beautiful part of the city.

The club is a beautiful part of the city, and it's a beautiful part of the city. The club is a beautiful part of the city, and it's a beautiful part of the city.

• *Exhibition*
The artist's
work is shown
in a series of
small, intimate
spaces, each
with its own
unique character.
The exhibition
is a journey
through the
artist's life and
work, from his
early years in
the 1950s to his
latest work in
the 1990s. The
exhibition is a
must-see for
anyone interested
in the history of
modern art.

Figure 1 consists of two bar charts. The left chart is titled 'All respondents' and the right chart is titled 'Respondents who have been personally affected by the economic crisis'. Both charts show the percentage of respondents for four levels of agreement with the statement 'The government should do more to help people who are struggling financially'. The categories are 'Strongly agree' (dark grey), 'Somewhat agree' (medium grey), 'Somewhat disagree' (light grey), and 'Strongly disagree' (white). The y-axis represents the percentage of respondents, ranging from 0 to 100.

Level of Agreement	All respondents (%)	Respondents who have been personally affected by the economic crisis (%)
Strongly agree	~65	~75
Somewhat agree	~25	~20
Somewhat disagree	~8	~5
Strongly disagree	~2	~0
